

BAMISTECH SOLUTIONS

bamisOS Restaurants & Bars

POS, bottle-to-shot stock, kitchen/bar tickets, recipes, WhatsApp orders, payments, reports and shift reconciliation in one operating workflow for restaurants, bars, lounges and hotel outlets.

What it controls

- Sales, POS and payment records
- Bottle, shot and recipe stock movement
- Kitchen and bar production tickets
- Staff PINs and shift accountability
- Daily close, variance and management reports

Why operators buy

- Reduce cash and stock leakage
- Know what happened during every shift
- Give staff a repeatable operating process
- Track outlet performance clearly
- Train faster with web and PDF manuals

Pricing with maintenance included

Starter

₦25,000

per month / outlet · 1 outlet · up to 5 users

Growth

₦55,000

per month / outlet · 2–5 outlets · up to 20 users

Enterprise

₦110,000+

per month / outlet · 5+ outlets · quote after workflow review

Maintenance model

Monthly plan includes platform updates, security fixes, cloud hosting, SSL, backups, monitoring, payment connector upkeep, support desk and training updates. Hardware, payment gateway fees, custom development, extra on-site visits and major migration work are quoted separately.
